Hamlin Lake Fishing Map

Hamlin Lake Fishing Map

Please Note:
This map is intended for general fishing information only. It is **not** intended for actual marine waterway navigation.

Types of Fish in Hamlin Lake:

- Walleye
- Northern Pike & Tiger Muskie
- Largemouth Bass
- Smallmouth Bass
- Speckled Bass (Crappie)
- Bluegill
- Sunfish
- Rock Bass
- Perch
- Cattfish
- Bullhead
- Sheep's Head

Zone 1

Very good fishing after spawning season, even better in the summer. Great trolling action in the summer along the shorelines for Crappies. In deeper waters trolling and jigging for Walleyes is good. Smallmouth Bass are caught almost everywhere occasionally.

Zone 2

Very similar fishing as in Zone 1. Both sides south of The Narrows are top trolling spots for Pike in the spring.

Zone 3

This zone hosts the most unique practically year round fishing in the lake. Pike and Bluegills in the winter, Perch during spawning season in April (Indian Pete Bayou) with Walleyes in the deeper areas. Spring and summer trolling yields Pike, and anglers can get their fill of Bluegills and Crappies throughout the summer. Spawning Largemouth Bass abound in Indian Pete's Bayou too.

Zone 4

Offers several busy seasons of good catches. In winter it's a good bet for Pike and Walleye. In spring trolling for Pike is a sure thing and in May and June when the Crappies arrive it's a great experience. In the summer months there is fine Bass and Bluegill fisheries.

Zone 5

Offers the best fishing for Bluegills, Crappies, Sunfish, and Pike in the shoreline shallows May-June. This zone and the North Bayou are the hot spots for winter Bluegill fishing.

Zone 6

This zone is at the headwaters of the lake and first to thaw out after winter. From ice-out to April you can catch plenty of big Perch. Bluegills and Sunfish hit at the first spring warm up. No summer action in this zone due to weed growth.
